

In Memory Of
Alex Figueroa

10/24/65 – 02/19/2010

Many times we work with each other and we do not know much about one another since all we focus on is our daily duties at work.

Alejandro (Alex) Figueroa; Alex was an amazing intelligent person; he was seeking his Bachelors degree and was very close to completing his degree as top of his class. He was a person who enjoyed life to the fullest but always thought of others. Some of Alex's interest included; biking, hiking, motorcycling, and staying fit. Alex was a musician and loved to play the guitar.

I can't help to reflect on all the good times we have had working together over the past 13 years.

I just want to say that it was a pleasure and a honor working Alex. Alex was a very integral part of the technology team. The IT department has many accomplishments over the years and Alex has been a major contributor in all our technology endeavors that directly affected our kids. Alex is one of the original staff member's that was involved in implementing and maintaining all the technology that we have in the district. As reserved as Alex was he worked so hard to make sure our kids had the best....but he always found a way to bring humor to our department.

Alex was a brilliant programmer. His passion for writing computer code was very evident, one of his major accomplishments was writing custom code to assist in student testing district wide, that was a huge accomplishment and that is one to be very proud of.

I can only say that it was a pleasure to work with Alex and a honor to call him a friend but more importantly he knew that we cared for him. Alex's contributions to the team will be missed but more importantly he as a person will be missed tremendously in the IT department. We have always considered Alex family, he was truly our brother and the IT staff will miss Alex but Alex will **NEVER** be **FORGOTTEN....**
